Group Discussion on a subject Machine Learning

Class: B.E. (Comp)   **Sem: VII (SH 2022)**
Sub. In-charge: Aditi Warange

Brief of activity :-Group Discussion on a subject machine Learning
 for BE students for understanding of subject and to update their knowledge .

➢ **Objectives of Group Discussion**

1. To get familiar with concept of machine learning models.

2. To acquire knowledge and skills for understanding and implementing machine learning application.

➢ **Expected Group Discussion Outcome**

 Participants will be able to:

1. Understand technical differences in various machine learning concepts.

2. Apply advantageous methods for developing machine learning application.

The group discussion program was organized between 26/10/2022 to 29/10/2022 on below topic,

1. Supervised and unsupervised learning.

2. Learning with regression and learning with tree.

3. Learning with Classification and learning with Clustering.
