

Innovative Teaching Methods

Course Name with code: Cryptography and system Security (CSC602) **SEM:VI**

Activity: Crossword puzzle

Course Coordinator: Prof. Asharani Shinde

Date: 10.03.2022

Report of Crossword Puzzle

Crosswords for students can improve their vocabulary, analytical skills, and memory. It is not just fun, but it is good for the mind. Brainpower can be stimulated in many ways, crosswords being one of them, and it helps in activating the mind.

So the crossword puzzle activity is conducted during lecture hours to engage the students of TE B with content areas and to improve their vocabulary and interest in the subject. They enjoyed this challenging study method.

Objectives of Crossword Puzzles:

1. Research has shown that regularly completing crossword puzzles can improve your ability to focus on any desired task and improve both your working memory and executive function.
2. All these skills are able to improve one's ability to successfully navigate everyday life's challenges.

Outcomes of Crossword Puzzles:

1. Improves mental functions.
2. Memory and thinking skills may improve with regular crossword practice.
3. Improvement in cognition and experienced less brain shrinkage.
