

Innovative Teaching Methods

Course Name with code: Cryptography and system Security (CSC602)

SEM:VI

Activity: Just a minute activity

Course Coordinator: Prof. Asharani Shinde

Date: 12.04.2023

As an Innovative Teaching method in TE class, a 'Just in minute quiz' activity is conducted on 12th April 2023. Students have prepared questionnaires on Security goals, mechanism and attacks.

Students are divided into 2 teams.

Team 1 - Hacker-Cracker Team TE (Group A)

Team 2 - Technotech Team TE (Group B)

- Each team will ask 10 questions to another team one by one, where students have the freedom to select who will answer/who will ask questions.
- For every right answer 1 mark.
- Scoreboard is prepared for marks.
- Finally, the team with the highest score is the winner.

Objective-

To become aware about security goals and mechanisms in depth.

To know the latest security attacks and way of hacking along with precautions to be carried out against such attacks.

Outcome-

Cognitive study of the given topic.

Spontaneous Question and Answer (Critical thinking)

Team building

Decision making (Who will ask questions or who will give answers)

Confidence, Stage daring.

Team B is the winning team with a score of 7 out of 10

Team A secured 5 points out of 10
