

Feedback Analysis and Action Taken Report

For Alumni Meet on Sunday, September 25, 2022

To keep in touch with the past students and alumni of our institute, every year the Training and Placement Department (T&P Department) organizes a 'Let's Meet One More Time' event in which we invite our past students to visit the college again and see for themselves the progress of the institute. The objective of the meet is to gather the opinion of the past students so that the institute machinery can be updated and enhanced because these students had studied in the institute for their engineering and they are supposedly the best judges to rate our performance. The institute authorities including the management, head of the institute, all the department's heads and deans of different departments, teaching and non-teaching staff members met the attendees and discussed with them the ways to improve the services rendered by the institute towards the current students and aspiring engineers. There was a free-flowing discussion among all the stakeholders of the campus. A few past students opined that students should be asked to study beyond the curriculum and pursue some networking courses from reputed training institutes to secure good career options. There was a number of suggestions from the past students, notably they were guidance on how to have a strong resume, help them improve their technical skills and knowledge, also help them build on soft skills, body language, communications, expose them to career guidance seminars/webinars, make them understand to focus on building the career. Others shown interest in helping the institute and the T&P Department to hold the placement drives for providing placement to the needy students.

The past students were informed that many student-centric activities are being undertaken, like aptitude and technical training, Microsoft Certification Training Program to update the students' technical competency, study abroad fairs, overseas counseling seminars, seminars on GATE Preparation and other competitive examinations. They were further informed that students are also provided training on English communication, soft skills, like working in a team, leadership, and interpersonal skills, thereby making sure that our students become better professionals to serve the core industries. In this way, the concerns and suggestions of the alumni were addressed and taken care of. In this manner, we encourage them to be a part of the regular and routine process of the institute to make sure we work for each other and for mutual benefits.

Prof Swapnil Desai
Head, T&P Department,
VPPCOE&VA.
